CHIEFTAIN

DEDICATION

"As we remember him"

Mr. Kenneth Wilbur taught science at C.C.S. for twenty-five years and for ten of these years he was THE science department: general science, earth science, chemistry, physics. Think what that means: two generations of students going back to the "old" school, before the fire . . . students who spent many afternoons in his lab, building hi-fis, peering through microscopes, or cooking up explosions . . . students who continued in science becoming engineers, doctors, and teachers . . . courses which must have changed radically, for this was the era of atomic physics, Sputnik and Apollo, molecular biology, and ecology . . . courses that came alive . . . the potassium tri-iodide on the floor, the boiling ice, the homemade volcano, "Oscar" and presiding over it all, "Jet" Wilbur.

Imagine the dedication and effort that went into those twenty-five years.

Everyone will miss him.

ADMINISTRATION

TO THE CLASS OF 1971:

Your class banner might well be titled, "CHANGE", for you have not only experienced it, you have persisted in its instigation and assisted in its implementation at C.C.S. A new constitution, team teaching, large and small group instruction, teacher-directed study, mini-courses, all have come to pass in this, your last year of high school. Not only have you led in the areas of instructional and political change, it is also apparent that you have established, once and for all, hope, youth's right to more than token citizenship, your manes and manes, short and long hair, white shirts and ties versus jeans and high boots have broken both patterns of adolescence and social custom. And yet, for all of the changes which have surrounded you, I think you will leave most of us with a pronounced impression of quiet, self-possession and assuredness. You seem to know where you are going and I have the feeling that you are bound to take us all with you.

God bless and keep you,

George W. Brown

GEORGE W. BROWN
District Principal

MESSAGE TO THE CLASS OF 1971:

It is difficult to give an entire class personality characteristics, however the Class of 1971 can be personified readily as dependable, energetic, and hard working. You are an industrious group whose greatest motivation appears to be satisfaction in a job well done.

At this time a year ago the staff, administration, and Board of Education were considering innovation for C.C.S. I felt then, and still do now that our greatest asset was our student body, that we could trust your collective judgments and values. I don't mean that you are all ready for adulthood, however, I honestly feel that this faith in you was well rewarded in the course of this school year. We thank you for your leadership and example.

My wish for you as you move a step closer to your ultimate goal is to go in peace. Maintain an even state of mind with a peace which recognizes the dignity of all individuals, a peace which realizes the meaning of your existence, a peace that comes from living God's plan for his creation.

Yours in Education,

Edward F. Murphy

EDWARD F. MURPHY
Secondary Principal

MRS. McCLAY

MR. WILLIAM SCHWARTZ

Dear Seniors:

The thoughts now running through my mind involve my desire to communicate to you a message of significance. What can I say that will have impact and meaning? Or, more important what could I say that would cause you to react? This message should be more than the usual wishes for good luck and success in the future.

That I want you to promote and display peace, love, and understanding in all you do, might be a part of my message. Yet, even these ideas are becoming empty words. The daily newspaper, the radio, and the television prove their hollowness. Why have such qualities, which depend on man's relationship to man, gone astray? Weren't they present at Arthur's round table and at the League of Nations; weren't they implicit in the beginnings of the United Nations?

Man must begin with himself. He must love himself, be at peace with himself, and understand his own feelings and attitudes. Without this self-knowledge first, how can he hope to know others? This, is my message to you. Learn first of yourself and give of this knowledge to others. Accomplishing these objectives can be the most significant contribution that you can make to humanity. It is a goal which is within the reach of all of you.

"Let his memory last forever"

SERVICE: A word superficially understood, yet truly demonstrated only by people themselves. Mr. Burton T. Woodward was a man of service, not only to himself and his family but to his community and his country as well. This was a part of his nature, to guide others and to live by his conscience, and to do the best he could even under trying circumstances. Such a man is rare in this world and we, in our humble way, remember Mr. Burton T. Woodward.

THE '70 SEASON

BASEBALL 1970

The 1970 baseball team at Carnegie Central finished the spring with a 17-5 record, bettering the 7-6 mark of the previous year. Losing the league championship to our arch-rival Stillwater, 5-1 in a well played game, the Indians still sat in second place. Mr. Record led his team for the second consecutive year to the Sectionals, only to be defeated by St. Johnsville in a game of many costly errors.

FOOTBALL 1970

When the 1970 football team reported to training on August 26, little did they know that they were in for their best season in ten years. The team opened the season with non-league wins over Tamarac and McCain. Winning their first league game on a muddy Stillwater field, the Indians went on to scalp St. Pete's and Schuylerville. The next week the team traveled to Greenwich to return home with a stinging defeat, their only set back of the season. The Indians ended the season by defeating Hoosick Falls. However, midway through the season, the coaches discovered that they had violated a rule, and, after having decided with the players, turned themselves in. They were advised to forfeit the game, did so, and were commended for their honesty. Thus the record appeared on paper as 7-2, but in the minds of the players and fans it stands 8-1.

"HOCKEY'S #1"

New records emerged as the 1973 Interscholastic Hockey Team ended a perfect season. Every school played, with the exceptions of Hoosick Falls and Hoosic Valley, was either Class A or Class B. And each one in turn fell victim to the aggressive forward line and the determined, unpenetrable defense. Only 12 goals were scored against C.C.S. during regular season games, as opposed to Cambridge's total of 48. Two sports-days were also attended where Cambridge registered 12 goals to the nine various opponents'. The team will lose four seniors this year: Anne Hudson, Bobby Boeker, Nicky Harding, and Michelle Dumas. The seniors, along with their team, would like to express their grateful thanks to Coach Jo Kafer and her "lucky hat". The team truly lived up to their chant "Hockey's #1". You were an asset to the school. Thank-you.

SENIORS: R. Boeker, A. Hudson, N. Harding, M. Dumas

A RECORD!

ALL ALONE!

THE END IN SIGHT!

OH!

1930 proved to be a fruitful track season for the girls. Eileen Franklin set the county record for the 110 with a time of 22.6 seconds. The combination of A. Hudson, J. McLenthian, P. (McCauley) Kelly, and Kathy Hall, clocked the 440 relay in at 28.6 for another record. The 880 relay record was broken by Eileen Franklin, P. Kelly, A. Hudson, and J. McLenthian. The time recorded was 2:12.1. J. Bellemare, A. Hudson, S. Ladwick, and B. Boever, are the graduating seniors and each, last year came very close to a record in their individual events and gained many a first place for C.C.S. All are aiming for a record in 1931. Thank-you Coaches Kafer and Hopkins.

THE GLORIOUS FINISH!
